4013 Pigeon Victoria

Primula acaulis

Primula

Primula Trials in Heidelberg

In Heidelberg (Germany) and Ewijk (The Netherlands) over 400 varieties of Primula and Viola have been tested over the years. The selections made are based on the valuable independent opinion of the Horticultural Research Station Heidelberg as well as an experienced sales team. As a result Schneider youngplants can offer you a wide range of varieties which fit well together both in terms of plant habit and flowering time.

Primula acaulis

Please note that the mentioned flowering times in the table below are based on the weather conditions of the Netherlands and Germany. Different weather conditions might have an effect on the flowering time, causing earlier or delayed blooming.

SERIES	ADVISED POTTING WEEK	FLOWERING
Dania	30-37	November - December
Paradiso Early	30-37	November - December
Bonn	28–38	November - December
Protos	34–40	January
